

Our Safe Way

Recommendations for Interventions

May 10, 2014

To address physical environment:

1. Clean up Pho Restaurant area. Landscape, paint mural. Meet with owner (Jenny and Mariko), submit Small Sparks grant to DON (Jenny & Cliff), organize community volunteers.
2. Establish opening between laundry and Safeway parking lot to encourage foot traffic and increased guardianship.

To address lack of guardianship:

3. Develop agreement between SPD and Safeway management to create high visibility parking stall for SPD. SPD to randomly use to create presence in the parking lot and area. (Ann & team)
4. Display tv screens from CCTV cameras more visibly within Safeway.
5. Partner with conservancy organizations to place signage for osprey nest in Mapes Creek. Encourage birdwatching. Partner with local schools for school projects to monitor osprey nests. Hold Show & Tell Osprey Day in Safeway Parking lot.

To address policy changes:

6. Revisit trespass agreement. If someone breaks the agreement, it is a tool for SPD to talk with them. (Ann & team)
